# building strong relationships

Anish Infrastructure strives to have a strong relationship with all its stake holders and aspires to form an indelible edifice. The strong green hands symbolizes that Anish has integrated the eco-friendly green concept in all its endeavours paving the way for future generations to enjoy a sustainable, greener tomorrow.

# ceo's message

A. Shamsudeen B.Tech.,  
Managing Director & CEO  
Anish Infrastructure (Coimbatore) Pvt.Ltd.,

At Anish Infrastructure, we serve people with a deeply embedded value system that not only focuses on customer satisfaction but also strives to achieve customer delight. This is the reason for our phenomenal growth in the last 15 years. We have three mantras as our management policy: Quality in our services, Transparency in our operations and Building relationship with all stake holders.

Our vision is to emerge among the most respected infrastructure companies at the national level and to serve the nation by dedicating ourselves to implementing and executing challenging projects.

I am sure that with our dedicated and professionally competent managerial and technical team, we will be able to realize our vision..

# mission

- > Achieve excellence in all our endeavors with a commitment to continual improvement.
- > Build strong relationships and to serve the society to promote universal joy and peace.

We aim to achieve excellence in quality and reliability in Engineering and Construction activities for total customer satisfaction with a commitment to continual improvement.

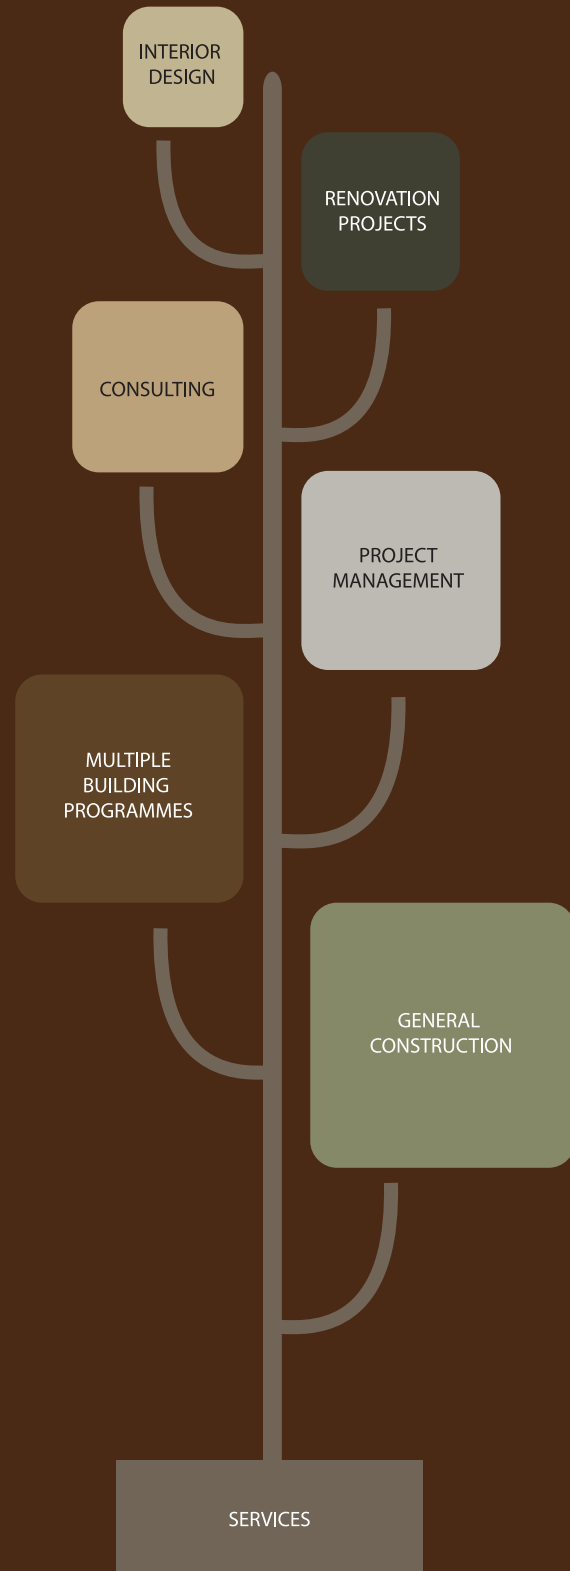

quality  
policy

# services

We specialize in all types of civil construction by leveraging new age construction technologies. For over two decades, we have been a part of prestigious projects across verticals. We indigenize the latest architectural technologies to local conditions and strive to extract maximum results.

We have strong man power expertise in various levels of operation. Quality, Trust and Time are always winning words for us. We bring a combination of skills to aid development. Our services are:

# management profile

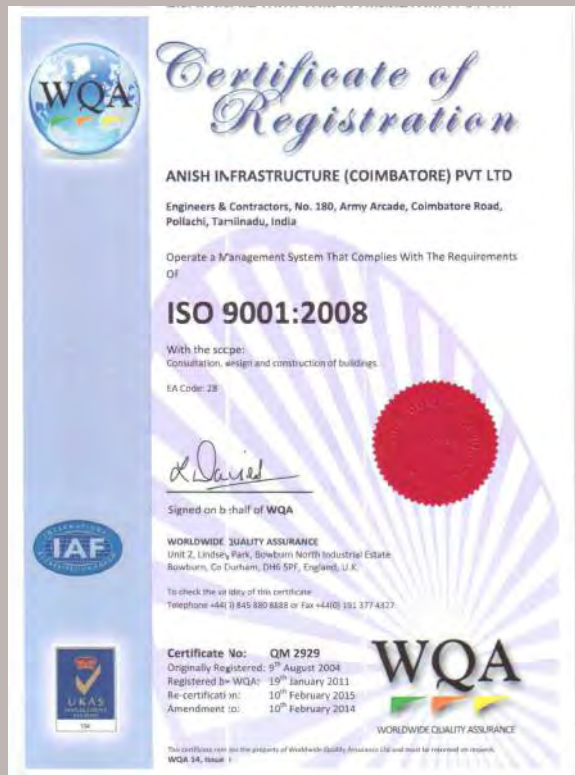

We are managed by a group of dedicated and committed professionals, led by Mr. Shamsudeen, Managing Director and CEO. Aiding him is a strong qualified technical team to face any challenges in the field of Construction and Infrastructure development. Our activities are supported by well defined hierarchical system of management professionals and technical workers. Our Quality Management Systems conform to international standards in construction and building.

Mr. Shamsudeen, MD & CEO, a qualified civil engineer and a brilliant technocrat has more than two decades of technical and managerial experience in the field of Civil Engineering, Design and Development, Consulting, Project and

Infrastructure Management. He has handled many crucial projects in his professional career. He served as the President of Association of Civil Engineers, Pollachi and President of Pollachi Lions Club East. He is also associated as a member of several professional bodies like Builders Association of India, Indian Chamber of Commerce & Industry and Confederation of Indian Industry.

# quality management system: founding values

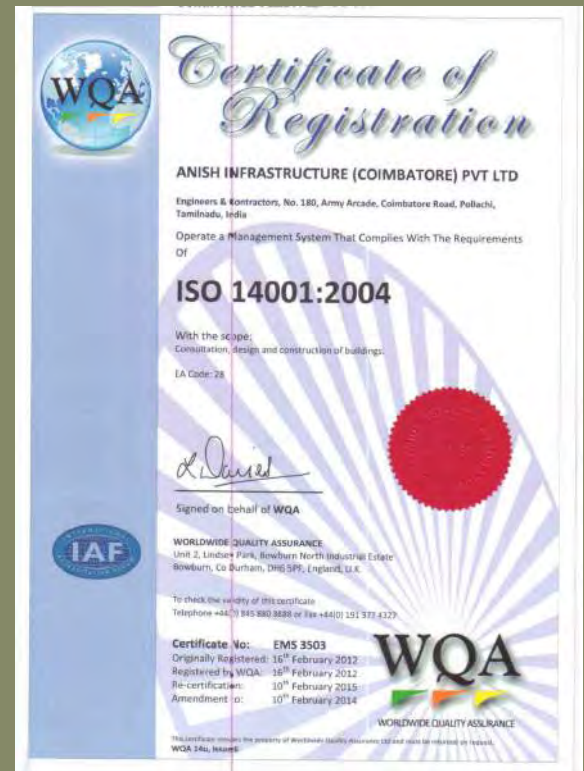

We foster high quality standards and contemporary world class technologies in all our endeavours, and thereby, have consistent and admirable reliability standards. Our principles of delivering the best is also reflected across our supplier chain - from the procurement of raw material to post construction activities. A firm commitment to all these values permeates across all aspects of our organization. We are an ISO 9001 accredited company by UKAS Quality Management, United Kingdom.

# environmental management system: towards a greener tomorrow...

As a step towards a greener tomorrow, we are committed to environmental excellence in all our endeavours. We do our best to integrate green concept in all planning, building and post construction activities. In addition to building lasting relationships for today, we also focus on ensuring sustainable development for the future. As a proactive initiative, we have already become an ISO 14001 standard company that is in tune to best Environmental Management Systems.

# corporate social responsibility (CSR)

We are passionate towards social reformation activities. We have formed our own division - Anish Foundation, to implement community development activities. We have adopted a Government School to offer our support in improving quality standards of education for the children, because we believe that investing in education is the only way to empower our country.

When Anish infrastructure forayed into active construction and building solutions in 1990, we started out with a difference: to create benchmarks, using best practices and evolving to meet environmental norms. Today, we have grown as much respected brand and have got a high recognition and reputation in the industry sphere. As a core principle, we are keen on forming a well knitted strong relationship among our customers, human resources, suppliers and the society. Our projects span diverse segments like Industrial, Institutional, Residential, Commercial, Apartments, Villas, Farm houses, Hotels & Resorts, Hospitals and Specialized Projects such as Crematorium, Temples, Mosques and Churches.
